SIR,

I have the honor to forward the enclosed extract (para 5) from letter No: 410/1156 dated 25th ultimo, from the Bangalore Range officer, regarding the Abbur Amkat in Channapatna Taluk; and to request that you will be good enough to obtain the sanction of Government to the entertainment of a moneyar (to be paid from the Revenue Budget), to have charge of the Head works and Channels, the same being desirable to remedy the neglect of maintenance of these works recently restored by Government, at a large outlay, and to attend to the distribution. —

Inspection Notes

Receipt 25 4/27 May 1892

To

The Executive Engineer

Bangalore Division

Sir,

5. — The machinery or screw gears of the scouring and head sluices are not taken care of by the Revenue Department and they are so roughly handled by the ryots, that one of the bed plates of the right scouring sluice has been lifted up by screwing the rod tightly. I have ordered the Sub Division officer to rectify it at once. There seems to be no one responsible, the Deputy Amildar having declined to receive the implements and works and grant a receipt, as reported in this office no: 891/2778 dated 26-12-91 and unless something is done towards the upkeep of the works, I am afraid the

war

working gears will [redacted] very soon. The supply during floods is also not regulated through the head sluices, properly beyond keeping the vents full open and perhaps the Channels will be damaged during heavy floods, if not attended to the regaling of the shutters. ——
